Abstract

Keywords: autoencoder, hypothesis testing, confidence level, unsupervised.

^{*}Corresponding author: stephane.caron.9@ulaval.ca

1 Introduction

Talk about the project and anomaly detection in general.

2 Background

2.1 Autoencoders

2.2 Variational autoencoders

2.3 Hypothesis testing

3 Methodology

3.1 Approach

3.2 Latent representation

3.3 Anomaly detection and hypothesis testing

4 Experiments

4.1 Datasets

4.2 Models tested

4.3 Discussion

5 Conclusion

6 Acknowledgment
